P-touch LABELS
TESTED
TO THE EXTREME ✓

“As our P-touch P750W is shared over the network, everyone in the office can print labels from their PC or Mac. Print labels using your Smartphone or tablet with the free iPrint&Label app.”

P-touch
P750W

PT-P750W features flexible connectivity options, making it the ideal choice for single or multi-user working environments.

The PT-P750W is a powerful, yet easy-to-use label printer that enables multiple users to connect via a wireless network, print from compatible Apple® iOS and Android™ mobile devices, or connect it via the USB cable (included) to your computer. It enables users on a wireless network to quickly create a wide variety of professional labels using a computer. It's great for individual label printing, but particularly well-suited to multi-label creation jobs thanks to print speeds of up to 30mm per second with repeat printing capability, and an automatic half or full cutter to help save time.

Flexible Connectivity

Multiple users can connect to the PT-P750W via a wireless 802.11b/g/n network or connect it via the included USB cable.

Great for Developers

Operates on an open-source development platform, it's easy for app developers to integrate label printing into their iOS and Android applications.

Super-fast Printing

The PT-P750W offers super-fast print speeds of up to 30mm per second.

Multiple Power Options

Use the power adapter (included) or AAA batteries or a rechargeable Li-ion battery (optional)

Mobile Device Printing

Install the free Brother iPrint&Label app on your compatible Apple iOS or Android mobile device.

Plug and Play Labelling Software

Includes pre-loaded labelling software that allows you to simply attach via USB to a PC or Mac computer.

Expanded Design Options

Expand the capabilities of the PT-P750W by using the compatible P-touch Editor Label Design Software (included).

P-Touch Laminated Labels – Designed To Last

Brother P-touch laminated TZe tapes consist of seven layers of materials, resulting in a thin yet extremely strong label. The thermal transfer ink is sandwiched between two protective layers of PET (polyester film), which protects the text against the effects of liquids, abrasion, temperature, chemicals and sunlight. As the labels have been tested to the extreme, you can be confident of a professional quality label that has been designed to last.
